TODAY'S MARKET REPORT.

Chicago. Aug. 13.—WHEAT—Excited breaks that reached as much as 3%c a bushel in some cases took place in the wheat market today as a result of assertions that sales of nearly two million bushels to exporters had been cancelled. As the sales, however, were conceded to show a profit to the buyers, the excitement soon subsided, and the market steadied at about 2 cents under last night's level. Traders generally were inclined to believe that difficulty in filling the export contracts at present had a good deal to do with the cancellation, and that chances of the opening of the Dardanelles was only in a remote way if at all responsible.

Opening prices of wheat with September at \$1.07½ to \$1.10 and December at \$1.06 to \$1.08 ranged all the way from 1621½c to 34½675%c under last night's figures. When the rush at the opening was over, the market was pivoting at \$1.00½ for September and \$1.07¼ for December.

Despite a rally that ensued after the sharp declines at the start, the market later stiffened from renewed weakness. The market closed nervous, 1½c to 3½63½c net lower for the day with September at \$1.07½. Later the market underwent a fresh decline, influenced somewhat by unexpectedly heavy arrivals of new wheat here. It was said also that largely owing to the semi-demoralized condition of the sterling exchange market the buying of wheat on foreign account had virtually come to a temporary halt. The close was nervous at \$1.07½ for September, a loss of 1½c to 3½63½c from inst night.

CORN—Weakness In wheat had a depressing effect on corn. The opening, which ranged from the to the lower, was followed by some slight further losses.

Subsequent price changes were narrow. The close was steady, to the change in the lose was steady.

night.
OATS—Oats like corn gave way with wheat. Country offerings of oats were materially enlarged.
PROVISIONS—Covering by shorts made provisions average higher. Lower quotations for hogs were virtually ignored.
